CAREER OBJECTIVES:

As a 4th-year IT student, I am focused on becoming a proficient mobile and web developer. My background in networking complements my development capabilities, enabling me to approach projects with a well-rounded perspective. I am eager to join a forward-thinking company where I can gain practical experience, contribute to innovative projects, and continue advancing my career in a challenging and supportive environment.

MOBILE & WEB DEVELOPMENT EXPERIENCE:

I primarily use Kotlin and Java for Android mobile development and apply my skills in HTML, CSS, and JavaScript for web development. I developed a POS system for a former small business called "Lost Donkey," where I utilized my Kotlin expertise. Currently, I am working on an Android app project called "Synthronize" as part of my capstone project. Synthronize is a social media platform designed to foster community interactions.
